

Forward to productivity without compromise

Castrol Hysol SL 45 XBB

is a high performance soluble metalworking fluid which is formulated without boron, biocides, formaldehyde releasing agents and chlorine. It contains an additive package that may help to enhance machining performance and surface finish. It also provides good product stability which helps to lower the overall operational costs.

Hysol SL 45 XBB is suitable for large central systems and single sump machines.

Advantages

- Formulated without chlorine, formaldehyde releasing agents and nitrite which may help you to fulfill aspects of legislative requirements and waste treatment requirements that specify that these chemicals are excluded.
- Extended fluid life can help reduce maintenance and machine downtime.
- Low foam in recommended water conditions
- Lubrication package designed to try to help to enhance tool life and improve surface finish on aluminium machining.
- Good wetting properties can help reduce coolant drag out and help deliver cleaner machine tools and components.
- Suitable for a wide range of materials and applications provides opportunity for product consolidation

Approvals*

Airbus:

AIMS 12-10-001 (technical specification)
AIPS 00-00-010 (material specification)
Approval 80-T-30-4010

Boeing:

BAC5008

Bombardier:

BAMS 569-001 Class A, C, D

Commercial Aircraft Corporation of China, Ltd. (COMAC):

PCD GSC-TC-SF2021/1

Safran Aircraft Engines (Ex SNECMA):

PR 6300A

BAE Systems:

Approved Product List AM00-00-01
Approval AM30-01-09, reference AMQ0150
