

Forward

to productivity
without compromise

Castrol Hysol XF

is a high performance chlorine free semi-synthetic metalworking fluid formulated without formaldehyde releasing agents. It contains an additive package that helps to enhance machining performance and surface finish, provide excellent product stability, improve bio-resistance properties and lower the overall operations costs.

Hysol XF is suitable for large central systems and single sump machines.

Advantages

- Formulated without formaldehyde releasing agents to fulfil aspects of legislative requirements that specify that these chemicals are excluded.
- Extended fluid life can help to reduce maintenance and downtime.
- Low foam in recommended water conditions.
- Lubrication package designed to try to help enhance tool life and improve surface finish on steel machining.
- Good wetting properties can help to reduce coolant drag out and help deliver cleaner machine tools and components.
- Multi-functional product for multi-metal operations can result in product consolidation.
